Purpose of the course: This is an advanced course intended for Ph.D. students. The course conducts a broad survey of the field, focusing on recent developments in the theory of international organization, and making use of historical examples from a range of substantive issue areas.

Course Requirements: Each student writes a data-based research paper (20-25 pages described below). A draft of the paper is due Monday, December 6, at 5:00 pm, and the final version is due December 17 at 12:00 noon. There will be opportunities to present versions of the paper during the semester. There will be a take-home final exam due December 20 at 4:00 pm. Grading: 1/3 class participation, 1/2 final paper, 1/2 final

research papers: Although the papers are short (no more than 25 pages, please), the standards are high. The papers are expected to formulate a hypothesis, ground it in appropriate literature, illustrate an argument or puzzle using qualitative evidence, and test the hypothesis using quantitative evidence.
