Exploration: A Very Short Introduction (Oxford University Press, 2015)

--a peer-reviewed contribution to Oxford University Press's well-known and highly successful Very Short Introduction Series.

--"Weaver's book is a model of what *Very Short Introductions* on historical subjects should be. He has mastered the material, adumbrated the problems, adopted rational approaches to a selection of cases and evidence, and managed to keep a sense of closeness to the sources. He writes concisely, clearly, and vividly, and includes anything a reasonable reader ought to demand."

Felipe Fernández-Armesto, William P. Reynolds Professor of History,
University of Notre Dame
